## CORPORATE PROFILE

We, Videotron Ltd. (“Videotron” or the “Corporation”), are a wholly owned subsidiary of Quebecor Media Inc. (“Quebecor Media”), incorporated under the Business Corporations Act (Québec). We are the largest cable operator in the Province of Québec and the third-largest in Canada, based on the number of cable customers, as well as being a major cable Internet service and telephony services provider in the Province of Québec. Our cable network covers approximately 78% of the Province of Québec’s approximately 3.6 million residential and commercial premises. The deployment of our LTE network and our enhanced offering of mobile communication services for residential and business customers allow us to consolidate our position as a provider of integrated telecommunication services.

Videotron Business Solutions is a premier full-service telecommunications provider serving small-medium and large-sized businesses, as well as telecommunications carriers. Products and services for small and medium-sized businesses are supported by extensive coaxial, fiberoptic and LTE wireless networks and data centers.

Videotron’s primary sources of revenue include: subscriptions for cable television, cable Internet access, cable and mobile telephony and over-the-top video services.

The following Management Discussion and Analysis covers the Corporation’s main activities in the third quarter of 2015 and the major changes from the previous financial year.

All amounts are stated in Canadian dollars unless otherwise indicated. This Management Discussion should be read in conjunction with the information in the Corporation’s Annual Report for the financial year ended December 31, 2014 (Form 20-F), which is available on the website of the U.S. Securities and Exchange Commission at <[www.sec.gov](http://www.sec.gov)>. Due to rounding, minor differences may exist between amounts shown in this MD&A and the condensed consolidated financial statements.

## HIGHLIGHTS SINCE JUNE 30, 2015

- During the third quarter of 2015, revenues grew 6.1% year-over-year, adjusted operating income grew 3.4% and ARPU grew 8.7%.
- As of September 30, 2015, 742,500 lines were activated on our mobile telephony service, an increase of 39,600 (5.6%) in the quarter and a year-over-year increase of 25.8%. Furthermore, wireless ARPU grew \$4.94 (11.2%) year-over-year.
- On October 27, 2015, Videotron announced a \$35.0 million expansion of the 4Degrees Colocation Inc. (“4Degrees Colocation”) data hosting centre in Québec City, acquired in March 2015. The project will add two new server rooms to the facility. On September 16, 2015, Videotron announced the construction of a 4,000-square-metre data centre in Montréal to provide business customers with the colocation solutions they need for hosting and processing the growing quantities of data. The \$40.0 million investment will be spread over several years.
- On October 15, 2015, the Supreme Court of Canada rejected Bell ExpressVu Limited Partnership’s (“Bell ExpressVu”) application for leave to appeal the Québec Court of Appeal judgment rendered on March 6, 2015 relating to Bell ExpressVu’s negligence in failing to implement an appropriate security system to prevent piracy of the signals broadcast by its satellite television service between 1999 and 2005, thereby harming its competitors and broadcasters. Accordingly, on October 19, 2015, Bell ExpressVu paid to the Corporation an amount of \$138.4 million, including interests.
- On September 15, 2015, the Corporation announced the closing of its issuance and sale of \$375.0 million aggregate principal amount of 5.75% Senior Notes, due in January 2026, for net proceeds of \$370.1 million, net of financing fees of \$4.9 million. The Corporation used the proceeds to partially repay the amounts outstanding under its revolving credit facilities and to pay transaction fees and expenses.
- On August 27, 2015, we launched the Unlimited Music service, which allows mobile customers to stream music through the most popular online platforms without using data from their mobile plan.
- On August 11, 2015, we introduced the brand-new illico 4K set-top box. Packed with innovative features, it is 12 times more powerful than an illico TV new generation set-top box, providing 4 times faster navigation speed and storing up to 115 hours of ultra-high definition (“UHD”) content.

### NON-IFRS FINANCIAL MEASURES

The non-IFRS financial measures used by the Corporation to assess its financial performance, such as average monthly revenue per user (“ARPU”) and adjusted operating income are not calculated in accordance with, or recognized by IFRS. The Corporation’s method of calculating these non-IFRS financial measures may differ from methods used by other companies and, as a result, the non-IFRS financial measures presented in this document may not be comparable to other similarly titled measures disclosed by other companies.

### AVERAGE MONTHLY REVENUE PER USER

ARPU is an industry metric that the Corporation uses to measure its monthly cable television, Internet access, over-the-top video and cable and mobile telephony revenues per average basic cable customer. ARPU is not a measurement that is calculated in accordance with IFRS and the Corporation’s definition and calculation of ARPU may not be the same as identically titled measurements reported by other companies. The Corporation calculates ARPU by dividing its combined cable television, Internet access, over-the-top video and cable and mobile telephony revenues by the average number of basic cable customers during the applicable period, and then dividing the resulting amount by the number of months in the applicable period.

### ADJUSTED OPERATING INCOME

The Corporation defines adjusted operating income, as reconciled to net income under IFRS, as net income before depreciation and amortization, financial expenses, gain or loss on valuation and translation of financial instruments, gain or loss on debt refinancing, gain on litigation, restructuring of operations and other special items and income taxes. Adjusted operating income as defined above is not a measure of results that is consistent with IFRS. It is not intended to be regarded as an alternative to other financial operating performance measures or to the consolidated statement of cash flows as a measure of liquidity and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. Our management and Board of Directors use this measure in evaluating our consolidated results. As such, this measure eliminates the effect of significant levels of non-cash charges related to the depreciation of tangible assets and amortization of certain intangible assets and is unaffected by the capital structure or investment activities of the Corporation. Adjusted operating income is also relevant because it is a significant component of our annual incentive compensation programs. A limitation of this measure, however, is that it does not reflect the periodic costs of tangible and intangible assets used in generating revenues. Our definition of adjusted operating income may not be the same as similarly titled measures reported by other companies.

## MANAGEMENT DISCUSSION AND ANALYSIS

### Analysis of Consolidated Results of Videotron

#### 2015/2014 Third Quarter Comparison

##### Customer statistics

**Revenue-generating units** – As of September 30, 2015, the total number of revenue-generating units (“RGUs”) stood at 5,605,900, an increase of 85,800 (1.6%) in the third quarter of 2015, compared with an increase of 125,300 (2.4%) in the same period last year. RGUs increased by 185,700 (3.4%) over the last twelve months.

**Mobile telephony services** – As of September 30, 2015, 742,500 lines were activated on our mobile telephony network, an increase of 39,600 (5.6%) in the quarter, compared with an increase of 38,100 (6.9%) in the same quarter of 2014. Mobile telephony lines increased by 152,100 (25.8%) over the last twelve months.

**Cable Internet access services** – The number of subscribers to cable Internet access services stood at 1,559,500 as at the end of the third quarter of 2015, an increase of 20,400 (1.3%) in the quarter, compared with an increase of 23,400 (1.5%) in the same quarter of 2014. Cable Internet access customers increased by 25,700 (1.7%) over the last twelve months. As of September 30, 2015, the household penetration rate (number of subscribers as a proportion of the 2,799,800 total homes passed) for our cable Internet access services was 55.7%, compared with 55.4% as of September 30, 2014.

**Cable television services** – Our combined customer base for cable television services decreased by 1,700 (0.1%) in the third quarter of 2015, compared with an increase of 2,300 (0.1%) in the third quarter of 2014 and a year-over-year decrease of 50,400 (2.8%). As of September 30, 2015, our cable network household penetration rate was 62.4%, compared with 64.9% a year earlier.

- The number of subscribers to illico Digital TV stood at 1,564,600 as at the end of the third quarter of 2015, an increase of 11,800 (0.8%) during the quarter, compared to a growth of 19,200 (1.3%) in the third quarter of 2014. Illico Digital TV subscribers increased by 19,700 (1.3%) over the last twelve months. As of September 30, 2015, 89.6% of our cable television customers were subscribers to our illico Digital TV services, compared with 86.0% as of September 30, 2014. Our illico Digital TV household penetration rate was 55.9% as of September 30, 2015, compared with 55.8% as of September 30, 2014.
- The customer base for analog cable television services decreased by 13,500 (6.9%) in the third quarter of 2015, compared with a decrease of 16,900 customers (6.3%) in the third quarter of 2014. Analog cable television subscribers decreased by 70,100 (27.9%) over the last twelve months, primarily as a result of customer migration to illico Digital TV.

## MANAGEMENT DISCUSSION AND ANALYSIS

**Cable telephony services** – The number of cable telephony lines stood at 1,329,500 as at the end of the third quarter of 2015, a decrease of 8,200 (0.6%) in the quarter, compared with an increase of 12,000 (0.9%) in the same quarter of 2014. Cable telephony lines decreased by 26,500 (2.0%) over the last twelve months. As of September 30, 2015, our cable telephony service household penetration rate was 47.5%, compared with 49.0% as of September 30, 2014.

**Over-the-top video services** – The number of subscribers to over-the-top video (“OTT”) services stood at 228,500 as at the end of the third quarter of 2015, an increase of 35,700 (18.5%) in the quarter, compared with an increase of 49,500 (52.5%) during the third quarter of 2014. OTT customers increased by 84,800 (59.0%) over the last twelve months.

<sup>2</sup> In thousands of lines.

**Revenues:** \$752.1 million, an increase of \$43.4 million (6.1%) compared with the third quarter of 2014.

Revenues from mobile telephony services increased by \$30.8 million (40.7%) to \$106.5 million, essentially due to customer growth and higher revenues per line.

Revenues from Internet access services increased by \$15.3 million (7.1%) to \$231.4 million. The improvement was mainly due to subscriber plans mix, higher revenues from Internet access resellers, increased usage and subscriber growth.

Combined revenues from cable television services decreased by \$4.6 million (1.7%) to \$260.2 million. This decrease was primarily due to the net customer base erosion, however partially offset by higher revenues per customer.

Revenues from cable telephony services decreased by \$5.1 million (4.3%) to \$113.4 million, mainly due to lower revenues per line, the net customer base erosion and lower long distance call revenues, partially offset by higher revenues from business customers.

Revenues from over-the-top video services increased by \$2.5 million (73.5%) to \$5.9 million, essentially due to customer growth.

Revenues from business solutions increased by \$1.6 million (9.9%) to \$17.8 million, mainly due to new revenues generated through the acquisition and integration of 4Degrees Colocation.

Revenues from customer equipment sales increased by \$3.1 million (27.4%) to \$14.4 million, mainly due to higher sales of mobile devices.

Other revenues were stable at \$2.6 million.

**Monthly combined ARPU:** \$136.94 in the third quarter of 2015, compared with \$126.02 in the same quarter of 2014, an increase of \$10.92 (8.7%). This growth is mainly explained by an increase in revenues from mobile telephony and Internet access services, as detailed above.

**Adjusted operating income:** \$350.2 million in the third quarter of 2015, an increase of \$11.4 million (3.4%) compared to the same quarter of 2014.

## MANAGEMENT DISCUSSION AND ANALYSIS

---

- This increase was primarily due to:
  - revenues increase, as detailed above.

Partially offset by:

- increase in operating expenses such as engineering cost and professional fees;
- unfavourable variance of \$8.3 million related to non-recurring items;
- increase in losses on the sale of mobile devices; and
- increase in programming fees.

**Employee costs, expressed as a percentage of revenues:** 11.0% in 2015, compared with 11.5% in 2014.

- Employee costs as a proportion of revenues slightly decreased primarily due to:
  - increase in employee cost capitalized to fixed assets and intangible assets, mostly related to the implementation of information technology projects.

**Purchase of goods and services, expressed as a percentage of revenues:** 42.4% in 2015, compared with 40.6% in 2014.

- Purchase of goods and services expenses as a proportion of revenues increased, primarily due to:
  - increase in operating expenses, as detailed above.

**Depreciation and amortization charge:** \$150.5 million, an increase of \$0.6 million (0.4%) compared with the same quarter of 2014.

- The increase was mainly due to:
  - increase in assets related to our wireless LTE network launched in September 2014; and
  - increase in illico Digital TV set-top boxes related to our rental program.

Largely offset by:

- a change in the assessment of the useful life of our spectrum licences, resulting in the cessation of the amortization of those assets during the second quarter of 2015.

**Financial expenses** (primarily comprised of interest on long-term debt): \$38.9 million in the third quarter of 2015, a decrease of \$2.3 million (5.6%) compared with the same quarter of 2014.

- The decrease was mainly due to:
  - \$6.3 million decrease in interest on long-term debt, mainly due to a lower average interest rate on our indebtedness and lower indebtedness.

Partially offset by:

- \$1.9 million increase in loss on foreign currency translation of short-term monetary items, due to a weaker Canadian currency;
- \$0.8 million decrease in net dividend income from the parent corporation, due to changes in tax consolidation arrangements; and
- \$0.4 million increase in the interest cost on defined benefit plans.

**Gain or loss on valuation and translation of financial instruments:** Gain of \$2.3 million, compared with a gain of \$2.0 million in the same period of 2014.

**Gain on litigation, restructuring of operations and other special items:** \$136.9 million gain recorded in the third quarter of 2015, compared with a \$0.5 million charge in the same quarter of 2014, a favourable variance of \$137.4 million. This variation mainly reflects the gain on litigation of \$138.4 million recorded in the third quarter of 2015, slightly offset by an increase in charges related to the gradual decommissioning of our analog cable television network infrastructure.

## MANAGEMENT DISCUSSION AND ANALYSIS

---

**Income tax expense:** \$67.0 million (effective tax rate of 22.3%) in the third quarter of 2015, compared with \$24.6 million (effective tax rate of 16.5%) in the same quarter of 2014.

- The increase of \$42.4 million was mainly due to:
  - \$40.6 million related to an increase in taxable income;
  - \$1.4 million increase due to tax consolidation arrangements with our parent corporation; and
  - \$0.4 million related to other items.

**Net income attributable to shareholder:** \$232.9 million, an increase of \$108.3 million (86.9%).

- The increase was mainly due to:
  - \$137.4 million favourable variance in gain on litigation, restructuring of operations and other special items;
  - \$11.4 million increase in adjusted operating income;
  - \$2.3 million decrease in financial expenses; and
  - \$0.3 million favourable variance in gain or loss on valuation and translation of financial instruments.

Partially offset by:

- \$42.4 million increase in income taxes; and
- \$0.6 million increase in depreciation and amortization charges.

## MANAGEMENT DISCUSSION AND ANALYSIS

### 2015/2014 Year-to-date Comparison

**Revenues:** \$2,223.2 million, an increase of \$126.6 million (6.0%) compared with the same period of 2014.

Revenues from mobile telephony services increased by \$87.9 million (43.0%) to \$292.1 million, essentially due to customer growth and higher revenues per customer.

Revenues from Internet access services increased by \$42.6 million (6.7%) to \$681.2 million. The improvement was mainly due to subscriber plans mix, higher revenues from Internet access resellers, increased usage and subscriber growth.

Combined revenues from cable television services decreased by \$16.4 million (2.0%) to \$790.3 million. This decrease was primarily due to the net customer base erosion, however partially offset by higher revenues per customer.

Revenues from cable telephony services decreased by \$8.1 million (2.3%) to \$346.5 million. This decrease was primarily due to lower long distance call revenues, the net customer base erosion and lower revenues per residential line, partially offset by higher revenues from business customers.

Revenues from over-the-top video services increased by \$9.2 million (124.3%) to \$16.6 million, essentially due to customer growth.

Revenues from business solutions increased by \$2.1 million (4.3%) to \$51.0 million, mainly due to the new revenues generated through the acquisition and integration of 4Degrees Colocation.

Revenues from customer equipment sales increased by \$8.0 million (27.5%) to \$37.1 million, mainly due to higher sales of mobile devices.

Other revenues increased by \$1.2 million (16.9%) to \$8.3 million.

**Monthly combined ARPU:** \$134.19 for the first nine months of 2015, compared with \$123.77 in the same period of 2014, an increase of \$10.42 (8.4%). This growth is mainly explained by an increase in revenues from mobile telephony and Internet access services, as detailed above.

**Adjusted operating income:** \$1,034.3 million for the first nine months of 2015, an increase of \$29.8 million (3.0%) compared to the same period of 2014.

- This increase was primarily due to:
  - revenue increase, as detailed above.

Partially offset by:

- increase in operating expenses such as engineering costs, call centre costs, professional fees and marketing costs;
- increase in losses on the sale of mobile devices;
- increase in programming fees; and
- unfavourable variance of \$9.2 million related to non-recurring items.

**Employee costs, expressed as a percentage of revenues:** 11.9% in 2015, compared with 12.1% in 2014.

**Purchase of goods and services, expressed as a percentage of revenues:** 41.6% for the first nine months of 2015, compared with 40.0% in the same period of 2014.

- Purchase of goods and services as a proportion of revenues increased, primarily due to:
  - increase in operating expenses, as detailed above.

**Depreciation and amortization charge:** \$467.0 million in the first nine months of 2015, an increase of \$23.8 million (5.4%) compared with the same period of 2014.

- The increase was mainly due to:
  - increase in assets related to our wireless LTE network launched in September 2014; and
  - increase in illico Digital TV set-top boxes related to our rental program.

Partially offset by:

- a change in the assessment of the useful life of our spectrum licences, resulting in the cessation of the amortization of those assets during the second quarter of 2015.

## MANAGEMENT DISCUSSION AND ANALYSIS

---

**Financial expenses** (primarily comprised of interest on long-term debt): \$124.4 million in the first nine months of 2015, a decrease of \$1.4 million (1.1%) compared with the same period of 2014.

- The decrease was mainly due to:
  - \$10.5 million decrease in interest on long-term debt, mainly due to a lower average interest rate on our indebtedness.

Partially offset by:

- \$4.3 million increase in loss on foreign currency translation of short-term monetary items, due to a weaker Canadian currency;
- \$2.4 million decrease in net dividend income from the parent corporation, due to changes in tax consolidation arrangements; and
- \$1.4 million increase in the interest cost on defined benefit plans.

**Gain or loss on valuation and translation of financial instruments:** \$3.3 million gain in the first nine months of 2015, compared with a \$1.6 million gain in the same period of 2014, a favourable variance of \$1.7 million.

**Gain on litigation, restructuring of operations and other special items:** \$133.3 million gain recorded in the first nine months of 2015, compared with a \$1.0 million charge in the same period of 2014, a favourable variance of \$134.3 million. This variation mainly reflects the gain on litigation of \$138.4 million recorded in the third quarter of 2015, slightly offset by an increase in charges related to the gradual decommissioning of our analog cable television network infrastructure.

**Income tax expense:** \$98.0 million (effective tax rate of 17.3%) in the first nine months of 2015, compared with \$64.1 million (effective tax rate of 15.5%) in the same period of 2014.

- The increase of \$33.9 million was mainly due to:
  - \$41.1 million related to an increase in taxable income;
  - \$7.0 million increase due to tax consolidation arrangements with our parent corporation; and
  - \$1.9 million related to non-taxable or non-deductible items, and other items.

Partially offset by:

- \$16.1 million in light of developments in tax audits, jurisprudence and tax legislation.

**Net income attributable to shareholder:** \$469.3 million, an increase of \$118.7 million (33.9%).

- The increase was mainly due to:
  - \$134.3 million favourable variance in gain on litigation, restructuring of operations and other special items;
  - \$29.8 million increase in adjusted operating income;
  - \$9.2 million favourable variance in gain or loss on debt refinancing;
  - \$1.7 million favourable variance in gain or loss on valuation and translation of financial instruments; and
  - \$1.4 million decrease in financial expenses.

Partially offset by:

- \$33.9 million increase in income taxes; and
- \$23.8 million increase in depreciation and amortization charge.

### CASH FLOWS AND FINANCIAL POSITION

This section provides an analysis of sources and uses of cash flows, as well as a financial position analysis as of the balance sheet date.

#### Operating Activities

##### *Third quarter 2015*

**Cash flows provided by operating activities:** \$298.6 million in the third quarter of 2015, compared with \$338.2 million in the same quarter of 2014, a decrease of \$39.6 million (11.7%).

- The decrease was mainly due to:
  - \$208.2 million unfavourable variance in non-cash balances related to operations, mainly due to the gain on litigation of \$138.4 million recorded in accounts receivable in the third quarter of 2015, an unfavourable net variation in income taxes payable and in accounts payable and accrued charges, and an increase in inventories.

Partially offset by:

- \$137.4 million increase in gain on litigation, restructuring of operations and other special items, as discussed above;
- \$17.6 million decrease in current income tax expenses; and
- \$11.4 million increase in adjusted operating income.

##### *Year to date*

**Cash flows provided by operating activities:** \$721.3 million in the first nine months of 2015, compared with \$800.2 million in the same period of 2014, a decrease of \$78.9 million (9.9%).

- The decrease was mainly due to:
  - \$279.9 million unfavourable variance in non-cash balances related to operations, mainly due to the gain on litigation of \$138.4 million recorded in accounts receivable in the third quarter of 2015, an increase in inventories and an unfavourable net variation in income taxes payable.

Partially offset by:

- \$134.3 million increase in gain on litigation, restructuring of operations and other special items, as discussed above;
- \$34.7 million decrease in current income tax expenses in light of developments in tax audits, jurisprudence and tax legislation; and
- \$29.8 million increase in adjusted operating income.

**Working capital:** Negative \$177.1 million as of September 30, 2015, compared with negative \$332.0 million as of December 31, 2014. The difference mainly reflects the gain on litigation of \$138.4 million recorded in accounts receivable in the third quarter of 2015, the net cash inflow from share capital issuance, the decrease in income taxes payable as explained above, and the cash inflows from debt issuance and revolving credit facility drawings; partially offset by the payment of \$218.8 million for 2500 MHz and AWS-3 spectrum licences acquired during the first nine months of 2015, cash outflows from debt redemption transactions and distributions paid to the parent corporation.

### Investing Activities

#### *Third quarter 2015*

**Additions to fixed assets:** \$177.8 million in the third quarter of 2015, compared with \$163.2 million in the same quarter of 2014. The increase is mainly explained by our illico Digital set-top boxes rental program and investments on our LTE wireless network, including the deployment of equipment in the 700 MHz spectrum band.

**Additions to intangible assets:** \$22.6 million in the third quarter of 2015, compared with \$15.9 million in the same quarter of 2014.

#### *Year to date*

**Additions to fixed assets:** \$480.9 million in the first nine months of 2015, compared with \$462.2 million in the same period of 2014. The increase is mainly explained by our illico Digital set-top boxes rental program and investments on our LTE wireless network.

**Additions to intangible assets:** \$281.1 million in the first nine months of 2015, compared with \$271.0 million in the same period of 2014. During the first nine months of 2015, the Corporation disbursed \$218.8 million for the acquisition of spectrum licences, compared to \$217.4 million in the same period last year.

**Business acquisition:** In March 2015, the Corporation acquired 4 Degrees Colocation and its data center for a total consideration of \$35.2 million, net of cash acquired and working capital adjustments. This acquisition will enable the Corporation to meet its business customers' growing technological and hosting needs.

**Net proceeds from business disposal:** In the first nine months of 2015, \$7.8 million net proceeds from the sale to our parent corporation of the specialized web site reseaucontact.com that occurred in November 2013.

### Financing Activities

**Consolidated debt** (long-term debt plus bank indebtedness): \$437.8 million increase during the first nine months of 2015.

- Summary of debt increases during the first nine months of 2015:
  - issuance, on September 15, 2015, of \$375.0 million aggregate principal amount of Senior Notes for net proceeds of \$370.1 million, net of financing fees of \$4.9 million. The Notes bear interest at 5.75% per annum and mature on January 15, 2026;
  - \$369.7 million drawings on our revolving credit facilities;
  - \$268.5 million unfavourable impact of exchange rate fluctuations. This increase in long-term debt is offset by a decrease in the liability (or an increase in the asset) related to cross-currency interest rate swaps, recorded under "Derivative financial instruments"; and
  - \$38.1 million net change in bank indebtedness.
- Summary of debt reductions during the same period:
  - redemption and retirement, on April 10, 2015, of all of our outstanding 6.375% Senior Notes due in December 2015, for a total aggregate notional amount of US\$175.0 million;
  - redemption and retirement, on July 16, 2015, of all of our outstanding 9.125% Senior Notes due in April 2018, for a total aggregate notional amount of US\$75.0 million;
  - redemption and retirement, on July 16, 2015, of all of our outstanding 7.125% Senior Notes due in January 2020, for a total aggregate notional amount of \$300.0 million; and
  - repayment of \$5.4 million of borrowings under a bank credit facility.

**Assets and liabilities related to derivative financial instruments:** Net asset of \$381.3 million as of September 30, 2015, compared with a net asset of \$111.2 million as of December 31, 2014, a \$270.1 million favourable

variance.

- The variance was mainly due to:
  - favourable net impact of exchange rate and interest rate fluctuations on the value of derivative financial instruments.

## MANAGEMENT DISCUSSION AND ANALYSIS

---

Partially offset by:

- settlement, on April 10, 2015, of hedging contracts in an asset position related to the redemption of our 6.375% Senior Notes; and
- settlement, on July 16, 2015, of hedging contracts in an asset position related to the redemption of our 9.125% Senior Notes.

**Dividends:** Net increase of \$170.0 million in common dividends to our parent corporation in the first nine months of 2015, compared with the same period of 2014.

### **Financial Position as of September 30, 2015**

**Net available liquid assets:** \$556.9 million for the Corporation and its wholly owned subsidiaries, consisting of \$38.1 million in bank indebtedness and \$595.0 million in unused availabilities under credit facilities.

**Consolidated debt (long-term debt plus bank indebtedness):** \$3,362.3 million as of September 30, 2015, an increase of \$437.8 million compared to December 31, 2014; \$270.1 million favourable net variance in assets and liabilities related to derivative financial instruments (see "Financing Activities" above).

As of September 30, 2015, mandatory debt repayments on the Corporation's long-term debt in the coming years are as follows:

**Table 3**  
**Mandatory debt repayments on Videotron's long-term debt**  
**Twelve-month period ending September 30**  
(in millions of dollars)

2016	\$ 10.7
2017	10.7
2018	10.7
2019	—
2020	369.7
2021 and thereafter	2,943.3
<b>Total</b>	<b>\$3,345.1</b>

The weighted average term of Videotron's consolidated debt was approximately 7.6 years as of September 30, 2015 (7.3 years as of December 31, 2014), and the debt consisted of approximately 80.4% fixed-rate debt (85.0% as of December 31, 2014) and 19.6% floating-rate debt (15.0% as of December 31, 2014).

## MANAGEMENT DISCUSSION AND ANALYSIS

---

Videotron's management believes that cash flows from continuing operations and available sources of financing should be sufficient to cover committed cash requirements for capital investments, including investments required for our wireline and wireless networks, working capital, interest payments, debt repayments, pension plan contributions, and dividends in the future. Videotron has access to cash flows generated by its subsidiaries through dividends and cash advances paid by its wholly owned subsidiaries. Videotron believes it will be able to meet future debt maturities, which are fairly staggered over the coming years.

Pursuant to its financing agreements, the Corporation is required to maintain certain financial ratios. The key indicators listed in these financing agreements include debt service coverage ratio and debt ratio (long-term debt over adjusted operating income). As of September 30, 2015, the Corporation was in compliance with all required financial ratios.

**Distributions to our shareholder:** We paid \$580.0 million in common dividends to our shareholder, Quebecor Media, in the first nine months of 2015, compared with total common dividends of \$410.0 million in the same period of 2014. During the third quarter of 2015, we also reduced our paid-up capital and distributed \$41.0 million to Quebecor Media.

### **AWS-3 and 2500 MHz wireless spectrum auction**

On March 6, 2015, the Corporation announced that it had acquired four 30 MHz licences in the auction for AWS-3 commercial mobile spectrum licences, covering the province of Quebec and the Ottawa region, at a total price of \$31.8 million. These licences were issued to the Corporation by Industry Canada on April 21, 2015.

On May 12, 2015, the Corporation announced that it had acquired eighteen 20 MHz licences in the auction for 2500 MHz commercial mobile spectrum licences, covering the province of Quebec, the Ottawa region and the cities of Toronto, Vancouver, Calgary and Edmonton, at a total price of \$187.0 million. These licences were issued to the Corporation by Industry Canada on June 24, 2015.

### ADDITIONAL INFORMATION

#### Contractual Obligations and Other Commercial Commitments

As of September 30, 2015, material contractual obligations included: capital repayment and interest payments on long-term debt, obligations related to derivative financial instruments, less estimated future receipts on derivative financial instruments, operating lease arrangements and capital asset purchases and other commitments.

Table 5 below shows a summary of our contractual obligations.

#### Related Party Transactions

The following describes transactions in which the Corporation and its directors, executive officers and affiliates are involved. We believe that each of the transactions described below was on terms no less favourable to Videotron than could have been obtained from independent third parties.

##### *Operating transactions*

In the third quarter of 2015, the Corporation and its subsidiaries incurred various expenses, including rent charges, from the parent and affiliated corporations in the amount of \$24.9 million (\$20.6 million in the same quarter of 2014), which are included in purchase of goods and services. The Corporation and its subsidiaries generated revenues from the parent and affiliated corporations in the amount of \$2.4 million (\$1.7 million in the same quarter of 2014).

During the first nine months of 2015, the Corporation and its subsidiaries incurred various expenses, including rent charges, from the parent and affiliated corporations in the amount of \$78.8 million (\$61.8 million in the same period of 2014), which are included in purchase of goods and services. The Corporation and its subsidiaries generated revenues from the parent and affiliated corporations in the amount of \$7.0 million (\$5.8 million in the first nine months of 2014). These transactions were concluded and accounted for at the consideration agreed between parties.

## MANAGEMENT DISCUSSION AND ANALYSIS

### **Management arrangements**

Videotron has entered into management arrangements with its parent corporation. Under these management arrangements, the parent corporation provides management services on a cost-reimbursement basis.

In the third quarter of 2015, Videotron incurred management fees of \$12.0 million (\$9.4 million in the third quarter of 2014) with its parent corporation. During the first nine months of 2015, Videotron incurred management fees of \$35.0 million (\$32.1 million in the first nine months of 2014).

### **Financial Instruments**

The Corporation uses a number of financial instruments, mainly cash and cash equivalents, accounts receivable, bank indebtedness, accounts payable and accrued charges, provisions, long-term debt, and derivative financial instruments.

In order to manage its foreign exchange and interest rate risks, the Corporation uses derivative financial instruments (i) to set in Canadian dollars future payments on debts denominated in U.S. dollars (interest and principal) and certain purchases of inventories and other capital expenditures denominated in a foreign currency, (ii) to achieve a targeted balance of fixed and floating rate debts and (iii) to lock-in the value of certain derivative financial instruments through offsetting transactions. The Corporation does not intend to settle its derivative financial instruments prior to their maturity as none of these instruments is held or issued for speculative purposes.

Certain cross-currency interest rate swaps entered into by the Corporation include an option that allows each party to unwind the transaction on a specific date at the then settlement amount.

The carrying value and fair value of long-term debt and derivative financial instruments as of September 30, 2015 and December 31, 2014 are as follows:

**Table 6**  
**Fair value of long-term debt and derivative financial instruments**  
(in millions of dollars)

	September 30, 2015		December 31, 2014	
	Carrying value	Fair value	Carrying value	Fair value
<b>Long-term debt<sup>1, 2</sup></b>	<b>\$(3,345.1)</b>	<b>\$ (3,319.8)</b>	<b>\$(2,951.0)</b>	<b>\$(3,020.9)</b>
<b>Derivative financial instruments<sup>3</sup></b>				
Early settlement options	4.7	4.7	5.6	5.6
Foreign exchange forward contracts <sup>4</sup>	8.2	8.2	4.2	4.2
Cross-currency interest rate swaps <sup>4</sup>	373.1	373.1	107.0	107.0

<sup>1</sup> The carrying value of long-term debt excludes adjustments to record changes in the fair value of long-term debt related to hedged interest rate risk, embedded derivatives and financing fees.

<sup>2</sup> The fair value of long-term debt excludes the fair value of early settlement options, which is presented separately in the table.

<sup>3</sup> The fair value of the derivative financial instruments designated as hedges is in a net asset position of \$381.3 million as of September 30, 2015 (net asset position of \$111.2 million as of December 31, 2014).

<sup>4</sup> The value of foreign exchange forward contracts entered into to lock-in the value of existing hedging positions is netted from the value of the offset financial instruments.

## MANAGEMENT DISCUSSION AND ANALYSIS

The gain or loss on valuation and translation of financial instruments for the three months and nine months ended September 30, 2015 and 2014 is summarized in the following table.

**Table 7**  
**Gain or loss on valuation and translation of financial instruments**  
(in millions of dollars)

	Three months ended September 30		Nine months ended September 30	
	2015	2014	2015	2014
Gain on embedded derivatives	\$ —	\$ (0.1)	\$ (0.1)	\$ (0.5)
Gain on reversal of embedded derivative upon debt redemption	—	—	(0.3)	(0.6)
Gain on the ineffective portion of fair value hedge	(2.3)	(0.4)	(3.6)	(2.1)
(Gain) loss on the ineffective portion of cash flow hedges	—	(1.5)	0.7	(1.5)
Loss on derivative financial instruments for which hedge accounting is not used	—	—	—	3.1
	<b>\$ (2.3)</b>	<b>\$ (2.0)</b>	<b>\$ (3.3)</b>	<b>\$ (1.6)</b>

A gain of \$44.7 million was recorded under “Other comprehensive income” in the third quarter of 2015 in relation to cash flow hedging relationships (loss of \$0.8 million in the same quarter of 2014). For the nine months ended September 30, 2015, a gain of \$25.3 million was recorded (loss of \$4.4 million in the corresponding period of 2014).

The fair value of long-term debt in table 6 is estimated based on quoted market prices when available or on valuation models. When the Corporation uses valuation models, the fair value is estimated using discounted cash flows using period-end market yields or the market value of similar instruments with the same maturity.

The fair value of derivative financial instruments recognized on the consolidated balance sheet is estimated as per the Corporation’s valuation models. These models project future cash flows and discount the future amounts to a present value using the contractual terms of the derivative financial instrument and factors observable in external markets data, such as period-end swap rates and foreign exchange rates. An adjustment is also included to reflect non-performance risk impacted by the financial and economic environment prevailing at the date of the valuation, in the recognized measure of the fair value of the derivative financial instruments by applying a credit default premium estimated using a combination of observable and unobservable inputs in the market to the net exposure of the counterparty or the Corporation.

The fair value of early settlement options recognized as embedded derivatives is determined by option pricing models using market inputs, including volatility, discount factors and underlying instruments adjusted implicit interest rate and credit premium.

### Change in accounting estimate

In the second quarter of 2015, the Corporation changed its assessment of the useful life of its spectrum licences. In light of recent spectrum auctions and developments in the telecommunication industry, the Corporation is now of the view that its spectrum licences have an indefinite useful life, based on the following facts:

- The Corporation intends to renew the spectrum licences and believes that they are likely to be renewed by Industry Canada;
- The Corporation has the financial and operational ability to renew these spectrum licences;
- Currently, the competitive, legal and regulatory landscape does not limit the useful lives of the spectrum licences; and
- The Corporation foresees no limit to the period during which these licences can be expected to generate cash flows in the future.

Accordingly, the Corporation ceased to amortize spectrum licences used in its operations as of April 1, 2015 and no amortization expense was recorded in the second quarter of 2015. The straight-line amortization expense recorded relating to these licences was \$13.9 million during the three-month period ended March 31, 2015, \$13.9 million during the three-month period ended September 30, 2014 and \$41.7 million during the nine-month period ended September 30, 2014.

### Cautionary Statement Regarding Forward-Looking Statement

This quarterly report contains forward-looking statements with respect to our financial condition, results of operations, our business, and certain of our plans and objectives. These forward-looking statements are made pursuant to the “Safe Harbor” provisions of the *United States Private Securities Litigation Reform Act* of 1995. These forward-looking statements are based on current expectations, estimates, forecasts and projections about the industries in which we operate as well as beliefs and assumptions made by our management. Such statements include, in particular, statements about our plans, prospects, financial position and business strategies. Words such as “may,” “will,” “expect,” “continue,” “intend,” “estimate,” “anticipate,” “plan,” “foresee,” “believe” or “seek,” or the negatives of those terms or variations of them or similar terminology are intended to identify such forward-looking statements. Although we believe that the expectations reflected in these forward-looking statements are reasonable, these statements, by their nature, involve risks and uncertainties and are not guarantees of future performance. Such statements are also subject to assumptions concerning, among other things: our anticipated business strategies; anticipated trends in our business; anticipated reorganizations of any of our businesses, and any related restructuring provisions or impairment charges; and our ability to continue to control costs. We can give no assurance that these estimates and expectations will prove to have been correct. Actual outcomes and results may, and often do, differ from what is expressed, implied or projected in such forward-looking statements, and such differences may be material. Some important factors that could cause actual results to differ materially from those expressed in these forward-looking statements include, but are not limited to:

- our ability to successfully continue developing our network and facilities-based mobile offering;
- general economic, financial or market conditions;
- the intensity of competitive activity in the industries in which we operate;
- new technologies that would change consumer behaviour towards our product suite;
- unanticipated higher capital spending required to deploy our network or to address continued development of competitive alternative technologies, or the inability to obtain additional capital to continue the development of our business;
- our ability to implement successfully our business and operating strategies and manage our growth and expansion;
- disruptions to the network through which we provide our digital television, Internet access, telephony and over-the-top video services, and our ability to protect such services from piracy;
- labour disputes or strikes;
- changes in our ability to obtain services and equipment critical to our operations;
- changes in laws and regulations, or in their interpretation, which could result, among other things, in the loss (or reduction in value) of our licences or markets or in an increase in competition, compliance costs or capital expenditures;
- our substantial indebtedness, the tightening of credit markets, and the restrictions on our business imposed by the terms of our debt; and
- interest rate fluctuations that affect a portion of our interest payment requirements on long-term debt.

We caution you that the above list of cautionary statements is not exhaustive. These and other factors are discussed in further detail in the annual report on Form 20-F, under “Item 3. Key information – Risk Factors.” Each of these forward-looking statements speaks only as of the date of this report. We will not update these statements unless securities laws require us to do so. We advise you to consult any documents we may file with or furnish to the U.S. Securities and Exchange Commission (SEC).

### **NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS**

For the three-month and nine-month periods ended September 30, 2015 and 2014  
(tabular amounts in thousands of Canadian dollars, except for option data)

Videotron Ltd. (the "Corporation") is incorporated under the laws of Quebec and is a wholly owned subsidiary of Quebecor Media Inc. (the parent corporation) and is a subsidiary of Quebecor Inc. (the ultimate parent corporation). The Corporation's head office and registered office is located at 612, rue Saint-Jacques, Montreal (Quebec), Canada.

The Corporation offers television distribution, Internet, business solutions, cable and mobile telephony and over-the-top video services in Canada and is engaged in the rental of movies and televisual products through its video-on-demand services.

#### **1. BASIS OF PRESENTATION**

These consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB"), except that they do not include all disclosures required under IFRS for annual consolidated financial statements. In particular, these consolidated financial statements were prepared in accordance with IAS 34, *Interim Financial Reporting*, and accordingly, they are condensed consolidated financial statements. These condensed consolidated financial statements should be read in conjunction with the Corporation's 2014 annual consolidated financial statements, which contain a description of the accounting policies used in the preparation of these financial statements.

These condensed consolidated financial statements were approved for issue by the Board of Directors of the Corporation on November 4th, 2015.

Comparative figures for previous periods have been restated to conform to the presentation adopted for the three-month and nine-month periods ended September 30, 2015.

#### **2. CHANGE IN ACCOUNTING ESTIMATE**

In the second quarter of 2015, the Corporation changed its assessment of the useful life of its spectrum licences. In light of recent spectrum auctions and developments in the telecommunication industry, the Corporation is now of the view that its spectrum licences have an indefinite useful life, based on the following facts:

- The Corporation intends to renew the spectrum licences and believes that they are likely to be renewed by Industry Canada;
- The Corporation has the financial and operational ability to renew these spectrum licences;
- Currently, the competitive, legal and regulatory landscape does not limit the useful lives of the spectrum licences; and
- The Corporation foresees no limit to the period during which these licences can be expected to generate cash flows in the future.

Accordingly, the Corporation ceased to amortize spectrum licences used in its operations as of April 1, 2015 and no amortization expense was recorded after this date. The straight-line amortization expense recorded relating to these licences was \$13.9 million during the three-month period ended March 31, 2015, \$13.9 million during the three-month period ended September 30, 2014 and \$41.7 million during the nine-month period ended September 30, 2014.

<sup>1</sup> On March 6, 2015, the Québec Court of Appeal ruled in favour of the Corporation and TVA Group Inc., an affiliated corporation, and ordered Bell ExpressVu Limited Partnership ("Bell ExpressVu"), a subsidiary of Bell Canada, to pay to the Corporation \$135.3 million, including interests, for negligence in failing to implement an appropriate security system to prevent piracy of the signals broadcast by its satellite television service between 1999 and 2005, thereby harming its competitors and broadcasters. On October 15, 2015, the Supreme Court of Canada rejected Bell ExpressVu's application for leave to appeal the judgment. The related gain of \$138.4 million was recorded in the third quarter of 2015.

**7. BUSINESS ACQUISITION**

On March 11, 2015, the Corporation acquired 4Degrees Colocation inc. and its data center, the largest in Quebec City, for a purchase price of \$35.5 million in cash. An amount of \$0.2 million was received in June 2015 as an adjustment related to working capital items. The acquisition will enable the Corporation to meet its business customers' growing technological and hosting needs. The assets acquired are mainly comprised of tangible assets of \$11.2 million, intangible assets of \$5.1 million and goodwill of \$19.6 million.

#### **8. INTANGIBLE ASSETS**

##### **2015**

On March 6, 2015, the Corporation acquired four AWS-3 licences, covering the province of Quebec and the Ottawa region, at a total price of \$31.8 million, for which the Corporation made an initial payment of \$6.4 million in the first quarter of 2015 and a final payment of \$25.4 million on April 21, 2015. These licences were issued to the Corporation by Industry Canada on April 21, 2015.

On May 12, 2015, the Corporation acquired eighteen 2500MHz licences, covering the province of Quebec, the Ottawa region and the cities of Toronto, Vancouver, Calgary and Edmonton, at a total price of \$187.0 million, paid entirely during the second quarter of 2015. These licences were issued to the Corporation by Industry Canada on June 24, 2015.

##### **2014**

On February 19, 2014, the Corporation acquired seven 700MHz licences, covering the provinces of Quebec, Ontario (except Northern Ontario), Alberta and British Columbia, at a total price of \$233.3 million, for which the Corporation made a cash deposit of \$15.9 million in 2013, a \$46.7 million payment in the first quarter of 2014 and a final payment of \$170.7 million on April 2, 2014. These licences were issued to the Corporation by Industry Canada on April 3, 2014.

#### **9. LONG-TERM DEBT**

On March 11, 2015, the Corporation issued a notice for the redemption of all of its issued and outstanding 6.375% Senior Notes due December 15, 2015, in aggregate principal amount of US\$175.0 million, at a redemption price of 100.000% of their principal amount. As a result, a net gain of \$1.7 million was recorded in the consolidated statement of income in the first quarter of 2015, including a gain of \$1.8 million previously recorded in other comprehensive income. On April 10, 2015, the Senior Notes were redeemed and the related hedging contracts were unwound for a total cash consideration of \$204.5 million.

In June 2015, the Corporation amended its \$575.0 million secured revolving credit facility to increase its size to \$615.0 million and to extend the maturity date to July 2020. The Corporation also entered into a new unsecured revolving credit facility of \$350.0 million, maturing in July 2020. The terms and conditions of this new unsecured facility are similar to the terms and conditions of the Corporation's secured revolving credit facility. As of September 30, 2015, \$369.7 million was drawn on the secured revolving credit facilities.

On June 16, 2015, the Corporation issued a notice for the redemption of all of its issued and outstanding 9.125% Senior Notes due April 15, 2018, in aggregate principal amount of US\$75.0 million, at a redemption price of 101.521% of their principal amount. As a result, a net loss of \$0.2 million was recorded in the consolidated statement of income in the second quarter of 2015, including a gain of \$2.1 million previously recorded in other comprehensive income. On July 16, 2015, the Senior Notes were redeemed and the related hedging contracts were unwound for a total cash consideration of \$75.9 million.

On June 16, 2015, the Corporation also issued a notice for the redemption of all of its issued and outstanding 7.125% Senior Notes due January 15, 2020, in aggregate principal amount of \$300.0 million, at a redemption price of 103.563% of their principal amount. As a result, a loss of \$13.6 million was recorded in the consolidated statement of income in the second quarter of 2015. On July 16, 2015, the Senior Notes were redeemed for a total cash consideration of \$310.7 million.

On September 15, 2015, the Corporation issued \$375.0 million aggregate principal amount of Senior Notes bearing interest at 5.75% and maturing in January 2026, for net proceeds of \$370.1 million, net of financing fees of \$4.9 million. The Senior Notes are unsecured and contain certain restrictions, including limitations on the Corporation's ability to incur additional indebtedness, pay dividends and make other distributions. The notes are guaranteed by specific subsidiaries of the Corporation and are redeemable at the option of the Corporation, in whole or in part, at any time prior to September 15, 2020 at a price based on a make-whole formula and at a decreasing premium from September 15, 2020 and thereafter.
